Subject Lonsdale Bleachery Update

Hi Frank,

We've opted not to demolish the boiler room at this time in order to begin the asbestos abatement immediately. General Environmental would like to begin work tomorrow. However, they are still waiting to hear from you regarding the required filing of the Health and Safety Plan. Assuming GE has the appropriate information to complete this step, is there anything else we need to do with the EPA at this time to begin the abatement? I will be here in the office until 5:30 pm today, then reachable by cell phone after.

Respectfully,

Michael Liberatore
